

Some Questions to Consider for Each of the Options

Each option under consideration by the Wind and Prairie Task Force has a number of implications. The following questions are not inclusive of all issues but are intended to help Kansans frame their comments and suggestions about each of the options.

1. What would be the impact on local control of wind and all development?
2. What would be the impact on private property rights?
3. What would be the impact on tallgrass prairie?
4. What would be the impact on wildlife?
5. What would be the impact on wind-energy development in Kansas in the next 5 years?
6. Would this require legislative action?
7. Given what you know of Kansas and Kansans, how difficult would the option be to implement?
